Thinking Out Loud

(By H. M. L.)

Grass Valley, tomorrow night launches its Quartz Gold celebration. It will be a carnival and Mardi Gras fete commemorating the discovery of gold bearing quartz 85 years ago on Gold Hill. This is an event that should appeal to every resident of the county, for that matter, of the Mother Lode, for it celebrates the momentous discovery that really assured the longevity of all communities engaged in mining. Mining camps that depended upon gravel alone quickly became ghost towns. It is only gold bearing quartz that assures continuity to mining centers.

It is gratifying to know that General Adolphus W. Greely, who in 1881 made his dash for the North Pole, was honored by Congress with the Congressional medal a few months before his death, which occurred Sunday. He was 91 years of age, and though many foreign countries had accorded him honors his heroic achievement, Congress delayed the honor just 51 years.

General De Bono in so far as he has progressed in his conquest of Ethiopia, has freed the slaves. They had also been freed by Haile Selassie a few weeks prior to De Bono's action. But this double freedom avails the slaves little, for their late masters are no longer under obligation to feed them and De Bono with his commissary limited, if it s adequte, to the needs of his troops, is facing a staggering problem. Haile Selassie, we imagine, will not be much disturbed. A few thousand slaves weigh little in the scales just now. Many slaves act as body servants to the soldier masters and of course these will be fed. But the women and children will lead a dreadful life of misery. Dr. Bono's gesture means nothing but more misery.

It now only remains for Postmaster General Farley to accept a bid for carrying airmail from San Francisco to Canton and the long Pacific span of fourteen days will be shortened to two. Depression or not, war or no war, the swift civilization of today moves forward in gigantic steps. We substract minutes, hours, days and weeks from the limitations of time, but as yet man has not even dented eternity.

In honoring R. L. P. Bigelow, by making him Governor General of the Past President's association of the Native Sons, that organization has honored Nevada Cty where he lives. We know of no citizen who has done more for the upblilding of Nevada County and the Tahoe Area than Supervisor Bigelow of the National Forest Service. Roads built to enable fire fighters to reach remote and dangerous sections of fire hazard, have served throughout this area to promote better living conditions, to make accessible timber, and ore, sports and recreation areas. In his private capacity he has aided in every forward step taken for the betterment of communities within his jurisdiction. The Forest Service has been fortunate in ts supervisor, and Nevada County has been fortunate having him numbered among its citizens over so long a term and for so many fruitful years.

The extraordinary statement of General Hugh Johnson in this week's Saturday Evening Post regarding the reasons the New Deal failed, should be carefully read by every person of voting age. There is not a single dead cat in the entire artcle. It is a carefully reasoned review of Roosevelt's adminstration to date. To the infiltration of the "Happy Hot Dogs" the large group of theorists named after Mr. Felix Frankfurter, into New Deal key positions, and their distortion and subversion of the New Deal plan as originally enunciated by Roosevelt in his election campaign, is attributed as the cause of the New Deal failure to date. General Johnson does not think it is too late to retrieve the plan from failure, but thinks Roosevelt must purge the administration of Frankfurter group, or that the Republicans must find a practical leader with vision and power to carry on from the point where Roosevelt was deflected from the original New Deal plan.

Some modern equipment is being installed at the service station of Jack Shebley at the corner of Nevada and Main streets in this city.

Myers Mobley of this city, gave a talk on Fish and Game Laws, before the Yuba-Sutter Rod and Gun Club of Marysville Wednesday evening.

NEW LIFE IN OLD MINE CAMP OF WASHINGTON

(By EDNA MARTINE)

A Nugget reporter was the guest of Mr. E. J. Haverstock on a trip to the little mining town of Washington and Spanish mine Tuesday. Motoring out over the Tahoe-Ukiah highway to the Junction House in the brisk morning air brought interesting and romantic objects close.

The Five Mile House, Lone Grave, Ski course, passed in rapid succession, then a glimpse of Relief Hill Diggings through the trees. It is reported three destitute families, in early days searched and found gold bearing gravel and remained until they realized a considerable sum of money there. As a little city sprang up it received the name of Relief Hill, and still exists.

A herd of 240 sleek Hereford cattle being brought down from Lindsay Lake country pastures with the owner, Chris Loney and drivers, parted to let us pass; passing the Junction House three snow capped peaks, English, Lindsay and Old Man mountains appeared, with Grouse Ridge in the foreground, then majestic Sierra Buttes swung into the panoramic view; Alpha and Omega diggings were next, with Scotchman's creek passing between in deep cleft canyon. When the gravel channels was worked at Alpha a small town with stores, school house and Masonic hall ,sprang up. As the diggings were hydraulicked out, the Masonic lodge was moved to Omega until it also became a ghost town, and was moved from there to Cotton, and Gold Hill communities. All of these famous diggings were on the same channel, some miles apart, and named as they were discovered. Omega was the birthplace of Emma Nevada, noted singer.

Next to greet us was the Red Ledge mine, operated by the late brothers, Foster and Hector Williamson, and Mr. Clyde Cole now of Washington. The grade became steep and Mr. Haverstock stated last winter a tractor kept the deep snow clear and only two trips were made with skii, but one of the packs weighed 85 pounds. This grade drops 1400 feet in four miles.

At the edge of Washington the stage passed Mr. Collins, who is bringing machinery and equipment into reopen the South Yuba placer mine southeast of Washington. Mr. Haverstock stated fully 300 Chinese in a town of their own near Washington in early days worked the streams and river nearby, where huge piles of boulders had been placed by hand. in their search for gold. Pausing for a brief time in Washington, in front of an old drinking fountain of ice cold water in the center of the street, there was a glimpse of old buildings. Among them was the store of Mr. Henry Kohler, built by his uncle in 1867, of native rock and earth; another old business house has the typical iron doors and windows of old time mining towns. Three new homes were in sight the latest being built by Mr. McCullough. There is not a vacant house in town. In 1932 a bundle of 1300 letters from many points were sent to the Washington post office to receive that city's cancellation on the Washington Bi-Centennial stamps, and went out in one mail. At the eastern edge of town the tiny rusty iron building is a jail, two by four timbers being placed one upon the other for thick walls. It has been many years since it was occupied.

Leaving Washington and crossing the South Yuba river the road winds east and north up over steep pitches and then through pretty woods to the Spanish mine. The Tahoe National forest lookout on Mt. Zion was noted; Bob Moscatelli's gravel property, across the canyon, came into view; next the road to the Lady Bug mine of Frank Dillon of Nevada City.

Then the Spanish mine, with its corrugated buildings, boarding house, and many small cottages, nestled in a curve on the banks of Poorman's creek was almost a town. It presented a busy scene. In front of the cottages, under trees and on steep slopes, were tiny flower gardens. New automobiles were noted everywhere, and it was stated 22 had been purchased by miners in the last few months. After passing the boarding house, crossng Poorman's creek, the stopping place was the mine office. In a short walk the big 80 ton mill, shops, store houses, and seven or eight immense settling tanks full of pulverized ore, were noted. The mile and half tramway running from Upper Camp comes down over the mill and an iron covered ore bin on top receives the ore. The shaft at the lower camp has been reopened in recent months, the mill handling ore from both camps.

The Spanish mine company purchased a new school bus and tractor, the road will be kept open for school children and business trips. Returning to town a detour over the Gaston mine road was traveled. Here the CCC camp boys' splendid work was in evdence. This road goes to Graniteville and Bowman Dam from Washngton.

Two lonely graves near the Gaston mine, indicate early day settlers. Valentine Brandt, aged 28, from Vermont, killed in a discussion over a foot race he won July 4, 1861, came to his death by his defeated companion. The other a woman, the head marker gone, is reported to have ded of smallpox.

At the eastern edge of Washington, a young negro, Charles Parkhan, a recent arrival, lives, and ekes out a living cutting wood and doing odd errands.

Then back to the hospitable and cozy hotel of mine host for a delicious dinner, and a view of the beautiful painting of Mrs. Haverstock. The bell in the old belfry called the school children to classes, at one o'clock and the homeward journey began. A long row of stately Lombardy poplars ,out near the childhood home of Mrs. George Fortier of Nevada Ctiy, gave a yellow glow as the sun slipped past the noon hour and cast soft shadows over the steep mountains side the stage was to climb.

Mrs. Hal Draper motored to Sacramento Wednesday and spent some time visiting with relatives. She was accompanied by her mother, Mrs. Shaw, who has spent the summer in her home in this city. Mrs. Shaw has rented her house and will spend the winter there.

George Williams, of Ellensburg, Washington, came down this week to be at the bedside of his uncle, William Fouyer, who is quite ill in Jones Memorial Hospital in Grass Valley.

HOOPSTERS IN FIRST PRACTICE OF SEASON

A large number of basketball aspirants were present at Armory Hall Wednesday evening when the first practice of the Nevada City Merchants, the local town team, was held. Players practicing in both the A and B divisions were on the floor shooting baskets and polishing the technique shown during last year's games.

No definite organization has taken place as yet, but the players are attempting to get an early start in order to plan a good schedule with other town teams and with junior college outfits. A number of players from Grass Valley were also present, lending their efforts to the production of a championship quintette in the event that Grass Valley has no town team of its own this season. More definite organization and schedule of practces will be announced shortly.

SERVICES SATURDAY FOR LATE JOHN RAWLING

Funeral services for the late John Rawling who passed away on Wednesday in Grass Valley, will be held under the Redmen Lodge auspices at the W. R. Jefford & Sons Funeral home tomorrow at 2 p. m.

The deceased, aged 70 years, was born in Cornwall, England and came to Grass Valley at the age of four, where he has lived ever since. He had worked as a mill man in the local mines for fifty years. He was very active in civic and fraternal affairs, being affiliated with Weimer Tribe, No. 34, I. O. R. M.; Olympic Lodge No. 74, Knights of Pythias, Ceanotha Council No. 9, Degree of Pocahontas and the Mine Workers Protective League.

Surviving family members are his wife, Mrs. Elizabeth Rawling, Mrs. J. C. Smith, San Francisco and Mrs. Elizabeth George, Stockton, sisters; Charles Trenberth, San Francisco, uncle; Ernest May, Sacramento, cousin and numerous nieces and nephews.

ROTARY HEARS MINE ENGINEER ON WORLD GOLD

Fred M. Miller, well known mining and civil engineer gave an intensely interesting address yesterday before the Nevada City Rotary club at luncheon in the National Hotel. He discussed the gold situation of the world which this year is breaking all former production records.

Among other things of vital interest he said:

There was more gold mining activity in July last than in any other month in the world's history.

Estimated production of the chief world-producing countries for 1935, based upon the first seven months production will be: First, South Africa, 9,750,000 ounces; second, Russia, 4,200,000 ounces; third, United States, 3,250,000 ounces; fourth, Canada, 3,100,000 ounces. What world production in 1935 will approximate 29,500,000 ounces or $1,032,500,000.

The Russian production shows the biggest forward leap of any country. In 1930, its production was but 868,068 ounces, whereas the present production is nearly five times the figure of five years ago. This is due to the discovery of a rich field in Siberia in 1929 and the rapid development of both placer and lode mining in that field.

The British Empire in 1934 produced 59.3 per cent of the world's gold.

Mines in this county, chiefly near Nevada City and Grass Valley, Mr. Miller stated, last year produced 203,700 ounces, plus some silver, valued at $7,300,000, and this year it is expected from present output rates, that the figure will reach $9,000,000 worth of gold.

Contributing to the last year's total were chiefly, Empire Star with 250,553 ounces, Murchie with 91,760 ounces and Idaho Maryland with 80,000 ounces.

Mr. Miller called attention to the fact that the Benguet and Balatoc mines in the Philippines were the world's richest from the standpoint of ore values, averaging around $29 per ton, as compared with Idaho-Maryland's averaging $18.35 per ton, Murchie's $12.25 and Empire-Star's $12.95.

Concluding his address, Mr. Miller said that Nevada County is one of the world's chief gold producing centers and that the outlook is bright for some years to come.

UNIVERSITY CLUB MAY BE FORMED

The football dinner of University men and women will be held in Nevada City this year and the committee expects to have 200 present.

At a committee meeting, at which twelve university alumni men present, held in the N. I. D. building, Monday night tentative plans were made for the formation of Grass Valley-Nevada City university club. These plans will be presented at the football dinner meeting before the Stanford-California game this year.

FREEZING WEATHER AT BOWMAN LAKE

Earl Hiscox of the State Fish and Game Commission, was in the Bowman dam country Tuesday and stated that it was the coldest day he had ever experienced there at this time of year. The strong north wind was piercing and frozen roads made hard driving, even the lakes had commenced to freeze over. The streams and lakes have more water in them than in years and it has made a plentiful supply for fish. At Bowman the gale of wind started waves at the upper end of the three mile lake and when they reached Bowman dam they broke like big ocean waves and splashed over the dam.

Mr. Hiscox said there were about four inches of snow at Bowman dam and 15 inches on English mountain. It is frozen solid and he advises anyone making the trip to take tire chains. The campers have all moved out for the season.

Mr. and Mrs. James Brown, from the upper camp at the Spanish mine, were Nevada City visitors Wednesday.

ZEIBRIGHT TO CLOSE IF SEVERANCE TAX LEVIED

After attending the severance tax hearing in Sacramento Saturday, Fred Searls, vice president of the Newmont mining corporation, left Sacramento for New York an Monday night.

The Newmont Corporation operates the North Star, Empre, Pennsylvania Mines, in the Grass Valley area; the Pennsylvania, in Browns Valley, Yuba County, and the Murchie in Nevada City and Zeibright Mine in Bear Valley.

Searls said he is extremely worried about the severance tax. He said it is no exaggeration to say passing of the proposed tax will result in the immediate closing of the Zeibrght mine, which employs 110 men, and the probable suspension of work at some of the other mines operating in the Nevada County area.

"Right now," Searls said, "mine owners are too worried about the severance tax to think of anything else."

He plans to be in New York on business for four weeks.

YELLOWJACKETS NOW B CHAMPIONS OF C. I. F. LEAGUE

In one of the most outstanding second half comebacks in the history of its football, the Nevada City high school defeated the Grant Union high school to the tune of 19 to 12 last Wednesday on the Grant Union gridiron. Trailing through the first half with a twelve point lead against them, the locals came back in the second period to play top football and to fight their way through to three touchdowns, the last of which was made during the last few minutes of the game.

The first half was marred by fumbles and poor kicks by the Nevada City men. Both of the Grant Union touchdowns were made in the first quarter of the game, the local boys having a rather difficult time to get used to a new field and different playing conditions. In the second quarter, the defensive playing of the Yellowjackets began to lighten. Neither of the teams scored, but the Nevada City team was beginning to get the feel of the field and were settling down to play football for a change. The first half ended with the score: Grant Union 12; Nevada City, 0.

The local team kicked off at the beginning of the third, and after an exchange of punts, Nevada City gained possession of the ball on its own 40. Through line bucks, passes and end runs, the local team fought its way to the opponents six from which point Burgen ran over for the first tally on a quarterback sneak. The attempt at conversion failed and the score at the end of the third quarter was Grant 12; Nevada City 6.

In the fourth, through a series of well-planned passes, Nevada City went from its own thirty to the Grant five, and Budie took the little pigskin over the line on a cross buck. Wilde attempted a place kick for the extra point but was unsuccessful.

Nevada City kicked off and a Grant man grabbed it on his own forty and ran five yards where Roberts tackled him so hard that he let the ball ooze out of his arms into the waiting arms of Burgen who lost no time in making a forty yard run for the third Nevada City tally. Budie made good the conversion. The gun fired with Nevada City on Grant's fifteen and raring to go for another score. The game ended, Grant 12; Nevada City 19.

The team was captained by "Merv" Doolittle and the game started with the following men on deck: LE, Elliott; LT, Bennett; LG, Roberts; C, Tobiassen; RG, Doolittle; RT, Perez; RE, Steger; Q, Stevens; RH, Burgen; LH, Budie; F, Jones. Perez played in the right-tackle position due to Moulton's illness and inability to get into the game. Substitutes who saw action were: Wilde, Tuttle and Bonner.

Coach Barron is whipping the team into shape for the contest with Grass Valley on November 2. The B division league season is at an end, and the scores of any other games to be played will not effect the standing of the Yellowjackets as B division champions.

COUNTRY FAIR IS NEXT BIG EVENT

Plans for the Country Fair sponsored by the P. T. A. with the objective of raising funds for the Boy Scout club building are well under way and are fast moving to completion.

The cider mill which will turn out cider from the best of apples right before your eyes, has been procured. There will be plenty of doughnuts to go with the cider.

The vaudeville program for Saturday afternoon, November 2 is drawing some extra special musical features to the front.

Exhibit space is rapidly being taken by local firms and apple growers who will make a notable exhibit.

The amateur hour registration is uncovering some of the best talent both in Grass Valley and Nevada City.

At nine o'clock, Saturday night, November 2, the lid will blow off and the Big Barn Dance will rage.

North San Juan will have an exhibition at the fair. As a gesture of good-will to Nevada City the San Juan Ridge Improvement League is planning a booth in which both antique and modern articles will be shown by this live Ridge organization.

GAS TAX INCOME TAKES BIG JUMP

SACRAMENTO, Oct. 24.—Doubling the gain shown in August, California gasoline taxes for last month reached a total of $3,984,627.78, marking an advance of $826,943.39 or 26 per cent, over the corresponding figure for September of last year. John C. Corbett, State Board of Equalization member from San Francisco, made this revelation here today when motor vehicle fuel tax assessments for September were completed.

"Surpassing all expectations," said Corbett, "the amount of gasoline subject to the three cent state tax last month was 134,162,490 gallons. This monthly total has been exceeded only twice during the past two years.

"In March, 1934, the taxable gallonage was 136,313,520 and in July, 1935, it reached a record total of 146,514,211. The high figure in 1934 was probably attributable in large part to a price war, while the gain last July was due primarily to the collapse of controlled production under the N. R. A."

ROSE BUD RECOGNITION AT LADIES AID SOCIETY

The Ladies Aid Society of the Methodist church met in the church parlors Wednesday afternoon with seventy members present. A delicious luncheon was enjoyed at one o'clock at a table artistically decorated with brilliant autumn leaves and fruits. The big orange pumpkins and Hallowe'en napkins were an added delight. Many happy toasts were enjoyed.

After lunch the recognition of Rose Buds were made with many pleasant surprises. Seventy four names were drawn for Rose Buds for the coming year. Throughout the year members, send cards and do many little acts of kindness to make the year as happy as possible for their "Rosebud" friend. The recipient of the gifts and acts of kindness does not know the doner until the last "Rosebud" meeting of the year. This is the fifth year of the "Rosebud" organization and it is growing in strength and happiness. Only thirty members took part the first year.

The outlook for the Ladies Aid Society of eighty five members is better than ever before. All members are working in unison and show the finest spirit of cooperation. Mrs. Bert Moody is the president.

Mr. and Mrs. Gale and three children are leaving Saturday for their home in Globe, Arizona, where he will return to his old position in a mine. He has been employed at the New Brunswick mine in this district. The family plans to return to Nevada City in the spring.

Frank Nelson of Washington was a Nevada City visitor yesterday. Mr. Nelson and his brother operate a mining property near Washington.

Tempest In The Treasury

The tempest brewing in the State Treasury concerning funds, their misuse and disappearance, is due to unleash its full fury any day now, and when it does it will probably not turn out to be the proverbial "ill wind that bloweth no good."

It is likely to blow ten-million-dollar-a-year savings right into the lap of the taxpayer.

This is not to say, however, that it is not an ill wind. There has been something peculiarly malodorous about the whole affair since the time it first attracted attention upon the simultaneous disappearance of a department official and $24,000. Neither the official nor the $24,000 has yet been found.

Last w eek private accountants after an investigation reported that the State's auditing system has nine major weaknesses, each one an individual affront to the heavily-burdened taxpayer.

Leon Donihue, chairman of the House committee appointed to examine the auditing system, after reviewing this report said the State auditors have been guilty of "gross negligence," and added that proper accounting methods and "honest management should save the State from five to ten million dollars a year."

If anything can do it, this revelation ought to convince the tax theorists that when budgets don't balance, the thing to do is slash government expenses rather than to load new levies on the taxpayer.

It ought to convince them, for example, that such new taxes as the unsound proposal for a "severance tax" on natural resources, for which an Assembly committee held hearings just last week, are not only intolerable and destructive burdens, but are also unnecessary.

Assemblyman Donihue further remarked concerning Treasury inefficiency that "if this condition is true in regard to the State Treasury, it is undoubtedly likewise true in other state departments."

The ten millions to be saved by stopping waste in the Treasury, then might be swelled to twenty, thirty, or forty millions by efficient administration throughout all state government.

Now that the taxpayer KNOWS this, he is not likely to support those men who seek to balance budgets by levying new severance taxes, new gas taxes, new nuisance taxes, new this and that taxes.

CHECKS 26 YEARS OLD CASHED IN SACRAMENTO

David Lewis of Camptonville was rummaging around in an old trunk recently and came upon two small checks which were put there twenty six years ago. Needless to say he sent them right off. They were written by Sacramento business houses which have long since changed hands and the banks through which they were drawn are no longer in existence. However both checks were accepted and paid.

Mrs. Charles Bley, Mrs. Ray Fontz and Mervin Tracy of Washington were Nevada City visitors Wednesday.

MONEY NO OBJECT IF IT'S A QUESTION OF HEALTH

Since 1780 thousands of people have regained their normal health after years of suffering from stomach troubles of all types, such as constipation, indigestion, gas, and sour stomach which are the basic factors of such maladies as high blood pressure, rheumatism, periodic headaches, pimples, on face and body, pains in the back, liver, kidney, and bladder disorder, exhaustion, loss of sleep and appetite.

Those sufferers have not used any man-made injurious chemicals or drugs of any kind; they have only used a remedy made by Nature.

This marvelous product grows on the highest mountain peaks, where it absorbs all the healing elements and vitamins from the sun to aid HUMANITY in distress.

It is composed of 19 kinds of natural leaves, seeds, berries and flowers scientifically and proportionately mixed and is known as LION CROSS HERB TEA.

LION CROSS HERB TEA tastes delicious, acts wonderfully upon your system, and is safe even for children. Prepare it fresh like any ordinary tea and drink a glassful once a day, hot or cold.

A one dollar treatment accomplishes WONDERS; makes you look and feel like new born. If you are not as yet familiar with the beneficial effects of this natural remedy LION CROSS HERB TEA try it at once and convince yourself. If not satisfactory money refunded to you. Try it and convince yourself with our money-back guarantee.

One week treatment $1.00. Six weeks treatment $5.00.

In order to avoid mistakes in getting the genuine LION CROSS HERB TEA, please fill out the attached coupon.

LIO-PHARMACY, Dept. 5407
1180 Second Ave.,
N. Y. City, N. Y.
Gentlemen:

Enclosed find $..... for which please send me..... treatments of the famous LION CROSS HERB TEA.

KLAMATH RIVER SALMON RUN IN

SAN FRANCISCO, Oct. 24.—Thrilling chinook salmon fishing at the mouth of the Shasta River where it flows into the Klamath was observed by George D. Nordenholt, director of Natural Resources, on a recent inspection trip through that section. He saw as many as six fishermen at a time fighting each a gamy monster. What particularly impressed Director Nordenholt was the fact that these fishermen were making their catches with regulation rod and spinner and had learned to appreciate the justice of the law which now prevents spearing of these fine fighters.

After questioning various anglers as to their reaction to the salmon spearing law one man told Director Nordenholt: "I used to spear these salmon and was very much exercised when we were forbidden to do so. I have gone to the rod and spinner now and get much more real sport outof it."

"That seems to be the general reaction among sportsmen," Nordenholt said. "I also saw steelhead being caught as far up the river as about ten miles below the mouth of the Shasta; thus there are fish in practically the entire river. This is encouraging to conservationists.

"The mouth of the Klamath was practically closed and the large run of silverside salmon has not begun. There were only a few of these fish there during the early part of October."

Director Nordenholt said that he did not know if this scarcity was caused by the closing of the river mouth or the lateness of the run of fish.

MOUNTAIN VIEW MINE

Mr. C. S. White, superintendent of the Mt. View mine, on the South Yuba river northwest of Washington, has had a well prepared plan of development under way for some time. Carpenters are building a bunk house and several cottages for winter use. Carl Trevethick and son, of Nevada City, are constructing a road to the property. All materials taken to the mine are trucked down on the south side of the river and taken over on a tramway. The new road will be much more convenient.

P. G. & E. TO CLIP 4 MILLIONS OFF ELECTRIC BILLS

PGE TO CLP uu

Reduced electric rates that will save consumers nearly $4,000,000 per year in the amount of their bills were announced Tuesday by the Pacific Gas and Electric Company.

Simultaneously, revised rate schedules embracing the reductions were filed by the company with the California State Railroad Commission.

The action has been made possible, a company statement declares, by increased consumption of electricity resulting from a temporary inducement rate put in force last December, by substantial reductions in bond interest charges, and by economies in operating expenditures. The benefit of savings accomplished by the company is being passed along to consumers in the form of lower rates and smaller bills.

The new reduced rates will apply to all classes of domestic service, to commercial lighting, and to power supplied in large blocks to commercial and industrial users. They will be effective throughout the 46 counties of central and northern California in which the company operates, and will benefit more than 690,000 consumers.

Reductions will become effective with bills submitted in January, the new rates applying after December meter readings. This will follow immediately upon expiration of the special inducement rate offer for additional use of electricity which, during the twelve months it has been in effect, will have saved consumers approximately $1,600,000.

Savings in cost of electric service in 1936 and thereafter undr the new rates will accrue to the various classes of customers substantially as follows:

Domestic consumers, $1,924,000.

Commercial lighting users $1.000,000.

Commercial and industrial power users, $1,000,000.

Total, $3,924,000.

Reductions in domestic rates will vary according to amount of electricity consumed and other conditions governing the different schedules. In incorporated cities and the towns the user of 60 kilowatt hours per month, an average consumption, will enjoy a reduction of 10.7 per cent in the amount of his bill. With greater usage the percentage of reduction will increase, ranging as high as 20.2 per cent for 150 kilowatt hours per month. In rural and unincorporated territory the percentages are somewhat lower.

In the incorporated areas the top rate is lowered from 4.5 cents to 4 cents per kilowatt hour and the second block from 3.5 cents to 2.5 cents both blocks being slightly lengthened. In rural districts, the rate for both the first and second blocks is reduced .5 cents (one-half cent) per kilowatt hour, the blocks also being somewhat increased.

Commercial lighting rates will be reduced between 9 and 10 per cent in cities and towns and a slightly lower percentage in unincorporated territory.

Large commercial and industrial consumers will realize savngs through simplification of rate schedules, certain adjustments in requirements and introduction of an entirely new schedule providing for combination light and power service.

P. M. Downing, first vice president and general manager of the company, in a statement issued today said:

"When the company made its special inducement rate offer one year ago it also made a tentative promise of permanently lower rates when it announced: 'It is our hope and expectation that this offer will so stimulate the use of electricity as to justify a reducton in the regular schedules.'

"That promise is now made good. The temporary inducement rates has resulted, as we hoped it would, in greatly increased use of electricity by our consumers. We now feel that because of this accelerated demand and other favorable conditions, we are justified in making rate reductions permanently available to all homes on our lines and to other classes of our consumers.

"The Pacific Gas and Electric Company is enabled to take this voluntary action for the additional reasons that in recent months, we have successfully re-financed our funded debt with 4 per cent bonds and thus substantially reduced interest charges; we have consolidated properties and cut down management and operating costs; and finally we have put into effect every economy that would add to the savings to be passed along to our consumers in lower rates.

"The rate reduction of $3,924,000 per year announced today is the third major reduction in electric rates made by this company during the past eight years. In 1930 a reduction of $3,020,000 per year followed very closely one made in 1928 which resulted in an annual saving of $2,418,900. Including the $1,600,000 saved through the special inducement rate of 1935, we estimate that the accumulative total of savings to consumers through electric rate reductions during the nine year period from 1928 to 1936, inclusive, will amount to approximately $54,621,000 at the end of next year."

what Irvin S. Cobb thinks about:

Gray Ghosts.

SANTA BARBARA, CALIF.—Wearing uniforms of weathered gray, the shades of several ancestors came to me as I slept and wanted to know if it was true that practically all the old-line Republicans in New England were ready to spring to arms against the New Dealers in defense of the sacred doctrine of states' rights.

I said such was indeed the case, and they said if those d—n Yankees had only seen the light a heap sooner, the Cobb family would've been saved a lot of bother, in 1861 and wouldn't have gone busted in 1865.

Irvin S. Cobb

I told them there had been no noticeable change since '65—the Cobb family was still busted. So they faded away.

I thought it might have been a dream, but when I woke up there still lingered the faint ghostly aromas of bourbon toddies and fried ham.

* * *

The President's Proclamation.

PRESIDENT ROOSEVELT started something with his proclamation warning United States citizens off ships belonging to the warring nations, following the one against selling to either of them munitions or deadly arms. The second order disappoints the thousands of tourists, especially those from the southern states, who'd arranged for winter cruises aboard Ethiopian boats, and the earlier one was a serious blow to those American producers who'd counted on selling Italy increased stocks of her favorite weapon. I refer to our garlic growers.

Think of all that stuff piling up in the warehouses over here and not nearly enough gas masks to go around! And, with the supply cut off, think of the defenseless populace over there! The last time I was in Naples, about every other person I met either had eaten too much garlic or not enough. And when I moved on to Rome, I appreciated the old saying, "When in Rome be an aroma." Still I must admit that I now feel toward garlic as I do toward our celebrated California climate—I like it, but not to excess.

* * *

Uncle Sam and Sanctions.

ALL we have to go by are the dispatches, which may be wrong, but if I were an Italian out in Ethiopia and a fortune teller had said to me lately, "I seem to see you going on a long journey where you'll meet some dark stranger who will be very antagonistic," I know I'd be homesick and I reckon probably I'd start doing a little serious thinking.

And if I were Mussolini, I'd be saying to myself that maybe I made a mistake by not considering the example of another great champion, John L. Sullivan. Any time the prospect was for a close fight, John L. drew the color-line.

And if I were Uncle Sam—as indeed, in our small ways, we all are part of him—I'd answer those mash-notes which will be pouring in pretty soon, bearing foreign postmarks, by stating that I positively was not going into the "sanctions" business. The name may be new, but the smell is both reminiscent and suspicious. In fact, it's the same old smell.

The Head That Wears a Crown.

WHAT with one of the leading movie families having what delicately is known out here as a rift, the dispatches from Greece just did make the front pages of some of the papers. This is the center of the rifting industry, and the daily quotations are eagerly followed.

The news must've created a stir, though, in Europe, which is dotted with many an "ex," marking the spot when a bounced monarch landed. Any revival in the king business, which for years was so sluggish, will be welcomed by interested parties. I seem to hear Wilhelm telling the hired girl to get the crown off the parlor whatnot and give it a wipe.

Still, King George might do well to book return passage before heading for Athens to remount the skittish throne that bucked him off once. Except when running restaurants, the Greeks are great hands for switching around.

* * *

A Pocketful of Change.

MR. HOOVER says that, at the end of this administration, our unpaid government obligations will exceed thirty-five billions, whereupon Senate Leader Robinson indignantly shrieks that, on June 30, 1936, the total national debt will approximate only thirty billions, seven hundred and twenty-four millions and some odd change.

But to any orthodox member of the last congress, what's a mere bagatelle of four or five billions? The boys toss those trifles off the same as Detroit batting in runs in the ninth inning of a world's series game. And anyhow, doesn't it still give us six full months next year to overtake the Hoover estimate? Why, it'll be like taking candy from a taxpayer.

IRVIN S. COBB

SEPTEMBER BEER THIRST SLUMPS

SACRAMENTO, Oct. 24.—A sharp decline in the thirst of California beer drinkers is disclosed in September beverage tax assessments completed here today by the State Board of Equalization. Richard E. Collins, Board Chairman, announced that total taxes on beer and wine for the last month were $159,863.89, contrasted with August revenue of $192,229.23.

"This decline in revenue," explained Collins, "is due to seasonal fluctuation in the consumption of beer. During August the State tax of two cents a gallon was collected on 8,044,521 gallons of beer as compared with 6,210,966 taxed in September.

"This difference is entirely accountable for the shrinkage in revenue, since the gallonage of still fines subject to tax last month was 1,656,570, contrasted with 1,499,629 the previous month, marking an increase of 156,941 gallons. In addition, the amount of champagne and other sparkling wine taxable at three cents a pint has shown even a greater gain. September sales were 83,772 pints, or almost twice the 44,874 pints taxed in August."

SUIT FILED AGAINST ANCHO-ERIE MINING CO

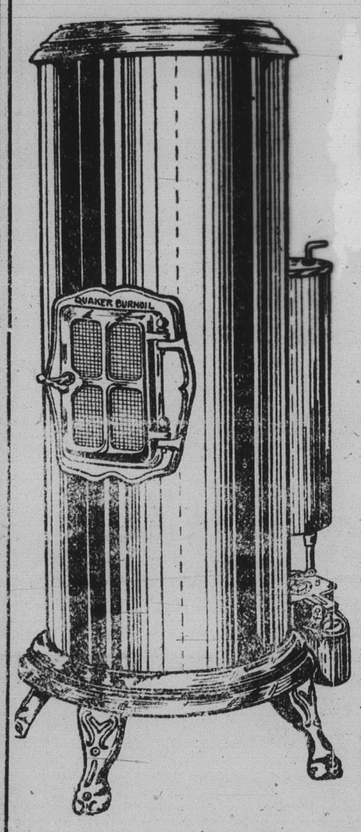
John Bender has filed suit in the superior court against the Ancho-Erie Mining Co., Inc., operators of the Ancho-Erie mine near Graniteville. Suit is filed for $1,600 actual and $5,000 exemplary damages.

Bender claims that he was employed by officials of the company to dig 400 feet of drift and that he erected a station anr began work but was refused permission to continue and that he was not paid for the work already done.

Attorneys for Bender are Donald E. Wachorst and Earl D. Drummond of Sacramento.

Mrs. Frank Colvin of Grass Valley spent Tuesday afternoon in Nevada City visting with her aunt, Mrs. Mary Guenther, and cousins, Mrs. Robert Allen, Mrs. J. F. Dolan and Charles Guenther. She was accompanied by Mrs. F. Key of Grass Valley.

Why Quaker Burnoil Leads



There is a very definite reason for QUAKER'S predominant position of leadership in the field of oil burning space heaters. Manufacturers of heating equipment since 1888. QUAKER, more than a decade ago, was the first to recognize the superior advantages of oil as a fuel for space heaters.

With an intimate knowledge of heating problems, with rich experience in building every type of warm air heating equipment, it is not surprising that the QUAKER BURNOIL Heater has reached the highest peak of scientific development. This fact also explains why there are more QUAKER BURNOIL heaters in use today than all other makes of the same type.

Wherever there is serious heating work to do —heat when you need it—heat that will protect valuable property —you can place complete reliance on equipment which bears the QUAKER name.

THERE IS NO TOIL WITH OIL

Above everything QUAKER BURNOIL heat is DEPENDABLE heat. Just turn on the oil to provide the temperature you desire, light it and forget it.

NARROW GAUGE WINS FRANCHISE FOR TRUCK LINE

In opinion handed down by the Railroad Commission Monday, a certificate of public convenience and necessity to operate a trucking service between Sacramento and Grass Valley and Nevada City, but not including the Sacramento-Auburn area, was granted the Nevada Pacific Trucking Agency, a joint subsidiary of the Nevada County Narrow Gauge Railroad Company and the Pacific Motor Trucking Company, in its turn a subsidiary of the Southern Pacific Company.

In an accompanying opinion an application of the United Motor Transport Lines, Inc., to extend its present Sacramento-Auburn service to Grass Valley and Nevada City and intermediate territory is denied.

In granting the application of Nevada Pacific Trucking Agency for a certificate the majority opinion was signed by Commissioners Whitsell, Ware and Devlin, with separate opinions concurring in the order by Commissioners Harris and Carr.

The transportation situation in Grass Valley and Nevada City is discussed in detail in the opinions, both as to rail and truck facilities. The decision points out that the granting of the certificate will provide Grass Valley and Nevada City with overnight l. c. l. freight service and will also serve resorts, gas stations and farms along the highway between Auburn and Nevada City, there being no lawful common carrier service by truck along this highway between these points.

The cost of the overnight service to the Nevada County Narrow Gauge Railroad Company is declared prohibitive.

The whole question at issue in the applications before the Commission is summarized as follows in the opinion.

"First, which of the two applications, Nevada Pacific Trucking Agency, or United Motor Transport Lines, Inc., should have the certificate to perform said service.

"Secondly, consistent with public interest, to what extent should such certificate be limited.

"The record impels two outstanding conclusions. First, the Nevada County Narrow Gauge Railroad Co., is rendering a vital and necessary service to the communities of Grass Valley and Nevada City. The perpetuation of this railroad is a matter of public interest. Secondly, United Motor Transport Lines, Inc., is performing a necessary and adequate service between and including Sacramento and Auburn. Said trucking company operates through joint rates with The River Lines and affords an expedited movement of freight between San Francisco and Oakland on the one hand, and Sacramento and Auburn on the other. Similarly, the preservation of this service is a matter of public interest. There is room and need for both carriers.

"Sound regulation supports and directs a true course for public interest. This course must afford the greatest advantages and the best results for those served. Those who are served suffer when the one service is crippled. Hence, sound regulation gravitates along a course compatable to the welfare of the utility that is rendering a vital service, a necessary service, an adequate service.

"If this commission were to grant the certificate sought by United Motor Lines, Inc., the Nevada Narrow Gauge Railroad Company would be in grave peril. Such a predicament should be avoided if possible.

"If this commission were to permit the Nevada Pacific Trucking Agency to parallel or substantially duplicate the service of United Motor Transport Lines, Inc., the latter carrier would similarly be in grave peril. Correspondingly, this predicament should be avoided if possible.

"It therefore follows that a coordinated rail and truck service should be permitted the applicant herein, Nevada Pacific Trucking Agency, for the transportation of freight and express, consisting of a direct daily auto truck service between Sacramento on the one hand, and points northerly from Auburn and including Grass Valley and Nevada City on the other hand, and between Auburn on the one hand and Nevada City on the other hand, both places being included; provided that such service shall not be extended to, and shall not affect, directly or indirectly, points between Sacramento and Auburn. It appears that the inauguration of such a service will at once make possible definite economies in the operation of the Nevada County Narrow Gauge Railroad Company, and will afford the territory between Auburn and Nevada City inclusively an overnight freight service which is needed, and which would appear to be adequate."

The certificate provides that it must be accepted within 15 days of the order; provides for a direct daily service of freight and express between Sacramento, and points northerly from Auburn and including Grass Valley and Nevada City on the other hand, and between Auburn on the one hand and Nevada City on the other, both places being included; provided that such service shall not be extended to, and shall not affect directly or indirectly, points between Sacramento and Auburn.

TOWNSEND CLUB WILL GIVE ARMISTICE DANCE

A committee consisting of George Harper of North San Juan, John Dupsyk of French Corral and Frank Miller of French Corral are working with much vigor and vim to make the dance to be given by the Ridge Townsend Club on Saturday night at Twamley Hall, North San Juan, November 9, a big success.

It will be an Armistice Day dance with "Over There," "Its a Long Long Way" and other tunes that the boys knew "over there" for dance music. "Slum-gullion" will be served army style from the dugout. Veterans will be present in uniform and merit badges.

There will be a fine door prize and waltz prizes.

HALLOWE'EN DANCE AT WASHINGTON

The little town of Washington is preparing to celebrate with a Hallowe'en dance and stew on the evenng of Saturday, October 26, in their town hall. Nevada City musicians have been engaged to furnish music. Dances at Washington are popular and a fine crowd is expected.

The Severance Ax

The Severance Ax we are calling the thing—
And surely the name is right;
For never was measure so well designed
To devastate, ruin and blight.
It would sever men from the pobs they hold
And cut down the marginal mines,
It would sever hope from reviving towns
And hew to the past's grim lines.

Why bother to work the low grade ore
When the Ax cuts off the gain?
Why open the long abandoned shaft
When the labor involved is vain?
Why build a home by the mountain trail
Or purchase a strip of land,
When hopes you cherish are ruthlessly felled
By an ax in the spoiler's hand?

Oh, Mother Lode, you were loved of yore,
And many the souls who cared
As they wandered away from your ridges and vales
And over the wide world fared;
But the sunlight shines on the dim old trails,
Hope sings to your eager heart,
And the tides of life flow back again
To tunnel and gulch and mart.

And the Severance Ax is reaised to strike—
A sinister, evil threat,
And apprehension may well prevail
Fro mAngel's to old You Bet;
But with facts and figures your children come
To stand at your gates enmasse—
The Severance Ax is cruel and sharp,
But we swear that it shall not pass.

—A. MERRIAM CONNER.

SCOUTS IN POW-WOW MEET AT KILBORN LAKE

Twenty two leaders of the Tahoe Area Council attending the "pow-wow" last week at the Council camp on Kilborn Lake were so well satisfied with the type of meeting that they were unanimous that this should become an annual gathering of the leaders to discuss Scout problems. H. A. Snelling and M. S. Beecher provided trout for one meal and thanks t Scout Ed Leak of Loomis and M. S. Beecher a tasty buck stew was enjoyed for Sunday supper.

Saturday night the Scout leaders association was reorganized and E. E. Gates of Loomis was elected the president and will preside over the Placer County section since it was thought best to have two sections, one for each county, due to distance. The first meeting was set at Loomis on the third Thursday of November and every two months thereafter. Committees were to be appointed to work with the Scout Executive to arrange programs for the 10th Rally and the annual spring Camporee.

Sunday morning and afternoon the new leaders association president, presided, the program consisting of varous topics of scout interest. After each topic local problems were discussed.

CAMPTONVILLE HOME BURNED

The residence of Alfred Heether on the Grant and Heether saw mill property near Camptonville, was destroyed by fire Tuesday. The Forest Service fire crew tried to save the property but the heavy wind made it impossible.

HOMES BUILDING; MUCH ACTIVITY IN REAL ESTATE

Within the last few days a number of properties have been sold in this city and suburbs. In almost all instances houses are being built or remodeled for homes or investment. The largest number of sales are noted in the western section of Nevada City at this time.

A five room log home with a spacious basement is located on Grove street adjoining the Orzalli home. The Bert Williams home on Grove street is almost completed, the building is being given an interior or plaster. Mr. Wlliams purchased the lot off the Parsons property a few weeks ago.

Miss Janie Springer, night operator of the Nevada City telephone office, and mother, sold their home and adjoining house on Boulder street to Mrs. Usery, and purchased the Sullivan house on Pine street. They moved into the Sullivan house in the last few days.

Mrs. Usery's husband was killed in a mine accident at the Zeibright mine several months ago leaving her with the eight children. Mrs. Usery has moved into the Springer home and the oldest child who is married, has moved into the adjoining building on the property.

Ted Janniss, of My Place Pool Hall in Nevada City, is erecting three new cottages on his property out toward the Murchie mine. Mr. and Mrs. Janniss have a nice home there.

Mr. Julius Rude, former owner of an auto court in this city, purchased a part of the orchard of Mr. and Mrs. James Dornnan on upper Boulder street as an investment. He is erecting a cottage there.

Mr. Dick Lane, head mechanic at the Plaza Garage, has purchased a lot from Mr. and Mrs. Henry Jacobs of upper Boulder street. Mr. Lane has a five room stucco house well under way and will soon be able to move with his family to his new home.

Mr. O. D. Woodman, local realtor, has sold the Edwards house, to the east of the court house in this city, to Attorney W. E. Wright, as an investment. Considerable renovating is being done. The house is occupied by Mrs. Rose Hegarty.

Mr. and Mrs. Ben P. Elliott, who purchased a home up on the Tahoe-Ukiah highway about a year ago, have purchased a tract of land on the Banner Mountain road. It is understood they moved their house and are now living there. Brown and Strandberg made the sale.

PWA AID FOR HOSPITAL SOUGHT BY NEVADA CO.

The county board of supervisors has made application to the Public Works Administration for $150,000 for the construction of a $300,000 new hospital between Grass Valley and Nevada Cty on the state highway.

Dr. Carl P. Jones of Grass Valley reached an agreement with the board that if the government grant is made, Nevada county wil have an interest in the hospital, without the necessity of assisting in the mantenance.

The hospital will be conducted by Dr. Jones, who now operates the Jones Memorial Hospital in Grass Valley, but it will be open to all physicians. It will be conducted as a private institution. The site adjoins the Nevada County Golf Course.

Nevada City Ladies Enjoy Truckee Meeting

Nine Nevada City ladies motored to Truckee Wednesday to attend the tri-county meeting of the Federated Woman's Club, which met in the club house in that city with Mrs. Belle Douglass of Nevada City, tri-county president, presiding.

The club met in the morning and after the regular club meeting enjoyed a ifne program planned by the Wyetha Club, the hostess club. Wyetha Club choral society rendered several very lovely songs. Mrs. Karl Schnabel of Yuba City, president of the Northern District of California gave a most interesting talk and one of the Truckee ladies read accounts of the legends of the origin of the names of Tahoe and Truckee.

After the morning session a most delicious lunch was served the ladies in the California Cafe in Truckee. The afternoon session was held in the club house at Tahoe City. Mrs. E. E. James, state president of the Woman's Federated Clubs gave a most interesting talk to the group.

Her talk was both instructive and inspirational.

The ladies from Nevada City pronounce it one of the most delightful club meetings they have ever attended. Those who had the pleasure of attending the meeting were: Mrs. C. E. Parsons, Mrs. George Legg, Mrs. Belle Douglass, Mrs. Robert Nye, Mrs. H. E. Kjorlie, Mrs. Ella Austin, Mrs. A. M. Hoge, Mrs. A. M. Hoge and Mrs. George Gildersleeve.

Many Enjoy Ladies Aid Society Dinner

Over seventy members of the local Ladies Aid groups were present at the annual Rosebud luncheon Wednesday night in the parlors of the Methodist church in this city. A fine meal was served at one o'clock and was furnished by members of the Friendship Circle, Mrs. Snyder acting as general chairman of the luncheon.

Decorations were representative of the fall season with an abundance of multi-colored leaves, freshly picked grape clusters and rosy-cheeked apples placed about the table. The center piece was a large pumpkin, adding the final touch to an October atmosphere.

At the table, Mrs. Buckner and Mrs. Moody took charge of the festivities with Mrs. Price, Mrs. Johnston, Mrs. Ray Murchie, Mrs. Charles Eden assisting in entertaining the group present.

The Rosebud ceremony followed. This ended the social with none disappointed.

Mrs. Carl J. Tobiassen accompanied a group of high school foot ball players to the Grant high school at Fair Oaks Wednesday.

Birthday Party for Catherine Tognarelli

Mrs. John Tognarelli entertained at a most enjoyable little party last Friday honoring the twelfth birthday of her daughter, Catherine. A pink color scheme and profusion of pink flowers throughout the cosy rooms cast a soft glow over the happy group. The large birthday cake was the central feature of the prettily arranged table. All enjoyed a gay time playing games, with first prizes going to Billie Muscardini, George McCarney and Max Bandy; Billie Norton and Beverly Paxson, each won consolation prizes.

Those present were, Misses Betty Lou Krough, Betty Norton, Jane Bennett, Beverley Paxson, Leila Shaugnessy, and Bernice Bankus, Messrs. Billie Norton, Georgie McCarney, Max Bandy, Billie Muscardini, Craig Davies, and Catherine Tognarelli.

House Warming At Bolton Home

Mr. and Mrs. Harry E. Bolton were given a surprise house warming in their modern new home on Walrath avenue on Monday evening. Several hours were spent in playing whist with prizes going to Mr. and Mrs. Leslie Hubbard, and Mr. Leonard Martin. A delicious luncheon was served at the close of the evening. Mr. and Mrs. Bolton were presented with a gift.

These present were: Mr. and Mrs. Leonard Hubbard, Mr. and Mrs. John Bertelsen, Mr. and Mrs. Leonard Morton and son, Albert, Mrs. Coral Elster, all of Grass Valley, Mrs. Thomas Oliver, Misses Alberta Bolton, Jennie Britlin, Harrison Randall of Nevada City and Mr. and Mrs. Ed Sinnock of Colfax.

QUILTING CLUB

The Gold Flat Quilting Club met at the home of Mrs. M. Penrose on Silva avenue in this city Wednesday for a happy afternoon of fancy work and social converse. Beautiful flowers from the yard of Mrs. Penrose were used in profusion to decorate the attractive rooms. A dainty luncheon was served at the close of the afternoon.

Among those present were: Mrs. Lacey Jones and mother, Mrs. Roberts, Mrs. James Ryan and Mrs. J. Roberts.

Mrs. Ray Murchie Hostess Quilters Club

The Quilters Club met at the home of Mrs. Ray Murchie Tuesday afternoon. At this meeting several members started fancy work for the coming Methodist church bazaar. Delicious refreshments consisted of hot rolls, hot brown bread, baked apples and cream.

This club has met at Days picnic ground and lake southeast of Nevada City during the summer and spent the afternoons in swimming and sewing patch work quilt blocks, with dainty refreshments being served late in the afternoon. Since cold weather has started it was decided to continue the happy gatherings in the different homes of the members.

Young Gordon Lageson Gift Bearer

Baby Gordon Lageson, son of Mr. and Mrs. L. G. Lageson was the gift bearer at a miscellaneous shower party given in honor of Miss Gladys Chivell of Sacramento by Mrs. R. A. Gilbert and Miss E. Taylor in Sacramento on Friday night. Miss Chevell is to be married to Clyde R. Shearer of Sacramento on November 3. Miss Chevell is the granddaughter of Mr. and Mrs. Thomas Hart of Grass Valley. While the guests were at the beautifully decorated supper table Baby Lageson appeared drawing a cartload of gifts for the bride to be.

FAREWELL TO CHURCH MEMBER

The L. D. S. church members to the number of thirty gathered in their church in Odd Fellows Hall in Grass Valley Wednesday evening and gave Mr. and Mrs. Lee Gale of Nevada City a surprise farewell party and luncheon. Mrs. Sarah Campbell gave a short skit and a comic reading which were greatly enjoyed.

Personal

Mr. and Mrs. Howard Burr of Nevada City have as a house guest, Mrs. V. Sutherland of Sacramento.

Mrs. James Ryan of Gold Flat, who has been quite ill for six weeks, was able to be out Wednesday for the first time.

Wesley Perry, son of Mr. and Mrs. W. C. Perry of this city, left several ago to accept a position as manager of a warehouse at Redmond, Utah.

Mr. and Mrs. Milton Schiffner of San Francisco who have been visiting the Otto E. Schiffners for the past fortnight will return to San Francisco tomorrow.

Mrs. Clayton Chatfield, who underwent an operation at the University of California clinic in San Francisco about ten days ago, returned home Tuesday. Her many friends will be pleased to learn she is making a good recovery.

FIVE KEGS OF BEER FOR ROOFING BEE

The San Juan Ridge Improvemen. League held its regular meeting at Twamley Hall on Wednesday night. After the business meeting Mrs. Frank Miller and Mrs. Joe Young furnished and served coffee and homemade doughnuts.

The hand made quilt which was won at the Fiesta by Mrs. George Green of Sebastopal was returned to the league by Mrs. Green with the suggestion that it be given to some young couple so Wednesday night Mr. and Mrs. Elmore Hasslet, newly weds were presented with the beautiful quilt.

Sunday, October 27 the men of the league will gather at Twamley Hall and complete roofing it under the promise of Leo Woods, Mike Dennick, Frank Miller, W. E. Moulton and W. Washburn, to furnish a keg of beer each to quench the thirst of the workers. The ladies of the league, under the direction of Mrs. Joe Young will furnish a hot roast beef supper.

Any one who can nail on a shingle is welcome.

WASHINGTON NEWS

(By MRS. CLYDE COLE)

WASHINGTON, Oct. 21.—Several truck loads of equipment have been taken to the South Yuba Limited Mine, within the past few days. This property is owned by Mr. Collins.

Mr. Price, formerly of the Omega mine was a visitor in Washington on Saturday, inspecting mining property.

Mr. and Mrs. Walter Burrows, who have resided in Washington for the past two years have gone to Nevada City to reside. Mr. Burrows was with the Eagle Bird mine while here.

Sheriff Carl J. Tobiassen and wife were in Washington on Thursday.

Mr. Charles Foster of the Washington Grocery was a visitor in Nevada City on Saturday.

Mr. and Mrs. A. Sisterner of Oakland were visitors over last week end. They had as their guests, Mr. and Mrs. Charles Rooney and family; also Mr. Rooney's mother. They all reside in the bay district.

Mr. and Mrs. A. C. Travis of Graniteville spent Friday in Nevada City visiting with Mr. and Mrs. Ed Brazell, who have moved.

Thru the Knot Hole

A Glimpse of Building Activity

VOL. 1. OCTOBER 25, 1935. No. 29.

Don't these nippy, frosty mornings make you think that perhaps an inspection of some kind of insulation will make your home more comfortable and less expensive to heat?

We can give you ing insulation. information regard-

Contractor Ralph Cochrane is just completing the Lane home in Grass Valley on Pennsylvania Hill. Among the specifications followed out by Contractor Cochrane were pine log cabin rustic, knotty pine interior finish in the living room and a ventilator built into the large fireplace.

The new design Pabco composition shingles on the Gold Nugget Inn on the Grass Valley highway make a very pleasing roof and are a lock type called Angle-lock. Available in five different colors.

Red Dog Road is showing a lot of building activity. Contractor Julius Rude formerly of Rude's Auto Court is erecting a cottage for himself and a number of other houses are going up. These are all close to Nevada City and will be fine places to live.

We hope that the Country Fair to be given by the Ladies of the Grammar School P. T. A. for the benefit of the Boy Scouts Lodge will be well attended. No more worthy cause can be found and the ladies should have the support of all of us.

LET'S LAUGH

Joe was watching a large building operation when the foreman came up to him and asked.

"Want a job?"

Slowly removing his pipe, Joe replied:

"I can only work mornings."

"Why can't you work afternoons?"

"In the afternoons," Joe replied, "I have job carrying a banner in the unemployment parade."

SUPERFEX oil burning HEATERS

IF WINTER usually means months of stoking and ash-hauling for you, investigate the Superfex Heat-Director! Connected to a flue like an ordinary stove, it burns inexpensive fuel oil and directs the heat where you want it.

No moving mechanism. No drafts to regulate. To direct the heat, just open the patented heat-projectors on one, two or three sides of the heater. All Superfex Heater models are listed as standard by the Fire Underwriters. Terms to suit your convenience. A product of Perfection Stove Co.

Cross section of Superfex Heat-Director above, shows how it works. Oil flows through copper pipe from removable reservoir to burner bowl in which constant level is automatically maintained. Fire is lighted through opening in front with no more kindling than a piece of paper. Constant control of heat by means of simple dial at rear.
